

St Ives Football club hopes that families are safe and well in these interesting times.

This year the club has spent some time reviewing our footprint on carbon emissions.

- We have recycling stations setup at Warrimoo and Toolang during games and training for bottles and cans
- Our new jerseys are being made from RPET (recycled materials)
- We will again collect boots to go to those in need
- We are reviewing with council the use of the clubhouse roof for solar
- All our training jerseys will also be returned at the end of the season to keep for 4 years
